2. Created Bugs

Bug ID	Bug Summary	Description
BUG-01	Incorrect Mentor Recommendations Displayed	The system displays incorrect or unsuitable mentor recommendations to students. The recommended mentors may not match the student's requirements, interests, or selected criteria.
BUG-02	Mentor Availability Slots Not Updating	Changes made by a mentor to their available time slots are not properly updated or reflected in the system, causing students to see incorrect availability information.
BUG-03	Student Unable to Book Available Session	A student is unable to successfully book a mentoring session even when the selected mentor has an available time slot displayed in the system.
BUG-04	System Allows Double Booking	The system allows more than one student to book the same mentor for the same time slot, resulting in scheduling conflicts and double bookings.
BUG-05	Interview Feedback Not Saved	Feedback submitted after an interview is not saved correctly in the system, causing the submitted evaluation or feedback information to be lost.
BUG-06	Slow Response When Loading Mentor List	The system takes an unusually long time to load and display the list of available mentors, negatively affecting system performance and user experience.
BUG-07	Unauthorized User Can Access Mentor Information	Users without proper authorization are able to access mentor information that should be restricted, creating a privacy and security issue.
